

AGRAR NEWS

An information about Schneider agricultural devices

Agricultural Devices: Significant Details!

Schneider is constantly developing its devices. Sometimes it's just a small improvement that makes the farmer's work, and therefore your work much easier.

... for pallet forks

The **ISO 2A pallet forks** previously offered for the pallet fork are sufficient for most front loaders. **ISO 2B forks** are now available for other front loaders and wheel loaders.

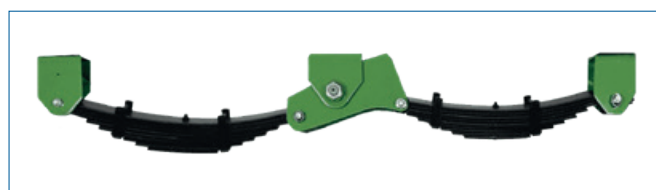

... for bale spikes

Schneider has expanded its bale spike programme. You can now order the **hydraulically folding bale spike 125.030.300** with three-point and Euro mounting, in addition to the **manually adjustable bale spike**.

... for springs, spring shoes etc.

For trailers, you can obtain springs, spring rocker arms and spring shoes. You can also just order the **complete units**.

Find out more about all the different ways our devices can be used: www.schneider-fc.com
